

# School Management Software

## About Product

Our cost effective solutions help educators rethink the student, reinvent operations and business models and rewire learning. Our business transformation services help educators develop a social CRM strategy and select design and implement solutions that enhance student engagement and improve student-institutional interactions.

We reshape instruction using mobile technologies and develop integrated instructional technology models to meet evolving learning requirements.

This software is desktop based can be run on any windows based operating systems XP, Windows 7, Windows 8. It is designed and developed using java programming language using My SQL as backend database.

## Features

- ✓ Automating the admission process of the students.
- ✓ Students Internal Assessment & exam scheduling.
- ✓ Students marks entry.
- ✓ Report generation.
- ✓ Admission & Monthly fees entry.
- ✓ Report of Admission & Monthly fees entry.
- ✓ Maintain Staff Personal details record.
- ✓ Students personal details records.
